Abdul Saboor Sohaib

FULL STACK DEVELOPER

Email | GitHub | LinkedIn | Twitter | Portfolio

SUMMARY

Full-stack web developer with 2+ years of professional experience. Demonstrated expertise in JavaScript, TypeScript, React, Nextjs, Redux, Ruby, and Ruby on Rails, having successfully developed and contributed to 30+ projects as a freelancer and team player. Proven proficiency in remote pair programming and a strong problem-solving aptitude. Passionate about open-source development and committed to staying up-to-date with the latest technologies. Excels in remote work environments and exhibits adaptability to new languages, frameworks, and technologies.

SKILLS

Front-end: JavaScript, TypeScript, React, Nextjs, Redux, TailwindCSS, Bootstrap, HTML5, and CSS3.
Back-end: Ruby, Ruby on Rails, and PostgreSQL.
Tools & Methods: Git, GitHub, Mobile/Responsive Development, Unit test, TDD, Chrome Dev Tools.
Professional: Remote Pair-Programming, Teamwork, Mentoring, Leadership.

EXPERIENCE

Aseel   Remote
Front-end Developer   **Nov 2023 – Present**

- Contribute to different projects with different technology.
- Successfully collaborated with other developers and designers to continually expand application capabilities
- Implemented visual elements to enhance user experience based on design feedback and client requirements

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full Stack Web Developer   **Aug 2022 – Nov 2023**

Mastered intermediate and advanced topics in full-stack development (including Authentication, Authorization, and Testing) while building multiple full-stack and front-end projects independently and via pair programming (as a team).

- Built the entire front end of the application with React and Redux.
- Identified areas for modification and improvements within a short span of time.
- Successfully modified numerous software applications that increased user-friendliness by 20%.

JUUBIX   Remote
Front-end Developer   **Aug 2023 – July 2023**

- Lead and motivate the team to achieve the goals.
- Contribute to different projects with different technology.

MICROVERSE   Remote
Mentor (Volunteer)   **Sep 2022 – Nov 2022**

- Mentored 5+ junior web developers, providing technical support through code reviews through Zoom and Slack.
- Proposed improvements to code organization to improve code quality and overall performance by 80%.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program for 5+ junior web developers.

[World Vision Clinic](#)
- World Vision Clinic is a professional web application that provides users with doctor profiles and a user-friendly appointment booking system, streamlining the process of selecting and scheduling appointments.

- **Built with: (Ruby on Rails, React, and PostgreSQL).**

[Budget Tracker](#)
- Budget Tracker is a user-friendly web application designed to help users effortlessly add categories and track expenses, providing a streamlined and efficient way to manage their financial transactions.

- **Built with: (Ruby on Rails, PostgreSQL, and Bootstrap).**

[Space Travelers Hub](#)
- Space Travelers Hub is a cutting-edge React application that empowers users to effortlessly book and cancel rocket reservations. Leveraging API integration.

- **Built with: (React, Redux, and Bootstrap).**

EDUCATION

MICROVERSE   **Aug 2022 – June 2023**
Remote Full Stack Web Development Program, Full-Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with JavaScript, Ruby, React, Redux, Ruby on Rails, and PostgreSQL.
- Developed skills in remote pair programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.

Jahan University   **Aug 2019 – July 2024**
Bachelor of Computer Science
- Learned Data structures and algorithms and the Theory of automata.
- Learned Digital Logic and Design with Mathematics.
- Mastered Database Management Systems.
