Back-End: Ruby, Ruby on Rails, Node.js, Nest.js, Prisma, and PostgreSQL.

Soft Skills: Leadership, Communication, Problem-Solving, Teamwork, Mentoring, Remote Pair-Programming, Quick Learning, Planning, and Collaboration.

Tools & Methods: Git, GitHub, Vercel, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools.

Mentor (Volunteer) (Part-Time)

Sep 2022 – Nov 2022

- Mentored 5+ junior web developers, providing technical support through code reviews via Zoom and Slack.
- Proposed improvements to code organization to improve code quality and overall performance by 80%.
- Provided advice and tips on how to maintain motivation and longevity in the program for 5 junior web developers.

EDUCATION

MICROVERSE

Aug 2022 – June 2023

Remote Full Stack Web Development Program (Full-Time)

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Ruby on Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.

Jahan University

Aug 2019 – July 2024

Bachelor of Computer Science

- Data structures and algorithms, and the Theory of automata.
- Digital Logic and Design with Mathematics.
- Database Management Systems.
- Human-Computer Interaction.
- Web design and development tools.

PROJECTS

[World Vision Clinic](#)

- World Vision Clinic is a professional web application that provides users with doctor profiles and a user-friendly appointment booking system, streamlining the process of selecting and scheduling appointments.
- Built with: (Ruby on Rails, React, and PostgreSQL)

[Budget Tracker](#)

- Budget Tracker is a user-friendly web application designed to help users effortlessly add categories and track expenses, providing a streamlined and efficient way to manage their financial transactions.
- Built with: (Ruby on Rails, PostgreSQL, and Bootstrap)

[Space Travelers Hub](#)

- Space Travelers Hub is a cutting-edge React application that effortlessly enables users to book and cancel rocket reservations, leveraging API integration.
- Built with: React, Redux, and Bootstrap
